

Professional Summary

Data Science Graduate with professional experience in business analysis, data analysis, AI automation, and process improvement. Experienced in working with business teams and stakeholders to understand requirements, identify process improvement opportunities, and support technology-driven solutions. Skilled in requirements documentation, reporting, testing, stakeholder communication, and solution presentations. Strong analytical, communication, and problem-solving abilities, with the ability to work effectively with both technical and non-technical teams in Agile environments.

Education & Qualifications

Sri Lanka Institute of Information Technology (SLIIT)

BSc (Hons) in Information Technology Specializing in Data Science (2020 - 2024)

- Dean's List Award (Final Semester).
- Relevant Coursework: Machine Learning, Data Engineering, AI, Cloud Computing, Analytics.

Business Level in Chartered Accountancy (2020 - 2022)

Diploma in Computerized Accounting, ESOF (2020 July)

Good Shepherd Convent Kandy (2005 – 2018)

Work Experience

Ravana Industries Pvt Ltd | Colombo

Associate Software Engineer – AI Automation (Aug 2025 – July 2026)

- Conducted process discovery sessions with clients and stakeholders to understand business needs and workflows.
- Gathered and documented requirements, user stories, acceptance criteria, and functional specifications.
- Analysed workflows to identify inefficiencies and opportunities for process improvement and automation.
- Translated business needs into use cases and solution requirements.
- Participated in client discussions, presentations, and solution demonstrations.
- Used SQL, Python, Power BI, and JIRA for analysis, reporting, requirement tracking, Agile delivery, and supported UAT/testing.

We Are Team Rocket Pvt Ltd | Colombo

Remote Data Associate (Nov 2023 - Apr 2024)

Data Intern (May 2023 - Nov 2023)

- Performed data extraction, transformation, and analysis using SQL and Python to support business reporting and analytics.
- Developed Power BI dashboards and visualisations to communicate operational insights and performance trends.
- Conducted data validation, reconciliation, and quality assessments to improve reporting accuracy.
- Collaborated with stakeholders to understand reporting requirements and deliver actionable insights.
- Supported ETL processes and data preparation activities for analytical and operational use cases.

Commercial Bank of Ceylon PLC

Operations Intern (Aug 2019 - Mar 2020)

AQL International Girls School | Kandy

Teacher (Jan 2019 - Aug 2019)

Publications & Projects

- SinhaLearn: NLP, CNN, and OCR-Based Data-Driven Approach for Enhancing Sinhala Proficiency of Grade 5 Scholarship Students, Published at MERCon 2024 and available on [IEEE Xplore](#) (Final-year research project).
 - Developed NLP-based text recognition and assessment models using CNN, OCR, and Python.
 - Enhanced Sinhala language proficiency in students with 80%+ accuracy in text analysis.
- Automated ETL Pipeline on AWS (S3, Lambda, Glue, EventBridge, SNS)
 - Built an end-to-end serverless data pipeline
 - Automated data ingestion, transformation, and loading
 - Implemented data validation, monitoring, and error handling
- TempGuard: Smart IoT-based climate control system (Node-Red, Python, MQTT, Node MCU, C, Arduino IDE).
- SL Rail Rover: Data visualization for Sri Lankan train booking (Figma, PowerBI).
- Hotel Management System: Web application (MongoDB, Express.js, React.js, Node.js).
- Diet_Me: Diet meal ordering app with BMI calculator (Java, Firebase).
- Content-based movie recommendation (Python, Streamlit, TensorFlow).
- Foodies: Social Media Platform to Share dining experiences (Java (Spring Boot), REST API, React.js, My SQL).

Technical Skills

- **Business Analysis:** Requirements Gathering & Documentation, Stakeholder Communication, Process Analysis, Process Improvement, User Stories, Process Mapping, Gap Analysis, UAT & Testing, Functional Documentation, Reporting & Presentation.
- **Data & Analytics:** Data Analysis, Data Cleaning & Validation, Data Visualization, Statistical Analysis, Reporting, ETL & Data Preparation
- **Technical Skills:** SQL, Python, Power BI, Excel, R, C, HTML/CSS, JavaScript
- **Cloud & Databases:** AWS, Azure, Firebase, MySQL, MongoDB
- **Tools & Platforms:** Git, JIRA, Confluence, VS Code, Postman, Jupyter Notebook, Figma, Draw.io

Leadership & Extracurricular Activities

- **Finance VP**, SLIIT Data Science Student Community
- **Activity Director**, SLIIT Leo Club
- **Treasurer**, The Legion of Mary, The Holy Childhood, Tamil Literary Union
- **Volunteer Teacher**, Parish Sunday School & for underprivileged students
- **Fundraiser**, Social Welfare Programs (e.g., HelpAge Sri Lanka)
- **Member:** Chess Club, Badminton Club, School Choir, Interact Club, SLIIT Leo Club, IEEE Student Community
